The investigating committee in Ohio is finding out precisely what's the mat-ter with Hanm.- [Atlanta Constitution.

Mr. F. E. Case's letter on improving tune. His views as to continuing to emroads are well worth considering.

The bank clearings for the week end ing February S were Canton \$168,800, a gain of 33 per cent over the same week last year; Akron \$234,700, a fall off from last year of 3.6 per cent; Youngstown, \$320,015

The Republican leaders are silver to get power but mere instruments in the fraud. In fact it is deception.

count the money in the treasury, work- eight millions. Stick a pin there. ing eight hours a day. In that time they have counted \$797,000,000. A deficit of \$559 was found. The treasurer At this season your feet feel swollen and big, nourishing food drink to take the will make it good. An employee in hot, and get tired easily. If you have place of coffee. Sold by all grocers and charge was the thief. He admitted taking \$15.

One of the beautiful results of Republican protection may be seen in the fact that forty years ago, with a foreign trade of \$700,000,000, 80 per cent of it was carried in American ships. Now, with a foreign trade of nearly \$2,000,000,000 only 11 per cent goes and comes under the American flag.

Senator Hanna's agent "General" H. H. Boyce turns up in Montreal, Canada. He was the man who went to Cincinnati to capture Representative Otis, offering \$10,000 for Otis's vote for Hanna and paying to Mr. Campbell, Otis's lawyer, \$1,750 down money. Boyce, finding he was caught skedaddled to avoid arrest, and for safety went to Canada.

The indomitable congressman Jerry Simpson, of Kansas, arraigned protective tariff Dingley the other day by accusing him of wearing a London made hat. The house exploded several times with laughter as did the galleries and the protection Maine man lost his temper but admitted on the inside was "London." The colloquy was spicy and enjoyable.

The Dingley tarifllaw puts 30 cents a country. This was to keep out Canada barley and so help our side. But the 54 inch Black Brilliantines, this sale...... Minnesota papers say barley there brings but 25 cents a bushel. The question therefore arises up there: Does protection protect? Does it help prices?

It looks as if Mr. Wannamaker, the great Philadelphia merchant, would lead the Republican revolt in the ring ridden Republican party. Mr. W., will probably be the nominee for governor. He says: "The fact is Pennsylvania is a slave state, and the bosses have honeycombed the old commonwealth with corruption from one end to the other."

One of the ripping ranters in the Beautiful Plaids House at Washington is General Henderson, of Iowa. He made the closing speech on the Teller resolution and let himself out on various matters, especially on "Popocrats." In alluding to the President's hanquet speech at New York he bawled out, "God bless little Mac." Of course he wants "the best money in the world paid to the bondholder, plowholder, hodholder, penholder, pension holder and all who toil and sweat. On that issue we will meet you next fall and thrash you as we did in 1896." And thez the Republicans cheered this empty blatherskyte.

Manufacturing conditions change wonderfolly from time to time, and then we see the rule of "survival of the fittest." This has been seen in Canton, Not many years agoreapers and mowers were the leading articles of production, but they have had their day here. Years ago Allegheny City had five or six cotton mills, large for that day, and did a good business for many years, but finally they had to succumb to the New England mills and for years there has been no cotton spinning in Allegheny. But now New England is having serious competition from the South. Their mills south are 25 Ladies' Trimmed Hats. . 50c

Fat is absolutely necessary as an article of diet. If it is not of the right kind it may not be digested. Then the body will not get enough of it. In this event there is fat-starvation.

Scott's Emulsion supplies this needed fat, of the right and in the form already partly digested.

As a result all the organs and tissues take on activity.

The real repudiators are those who are against the government's right to pay its obligations in coin according to the Tom Reed seems determined to do contract, for they discriminate against nothing except to keep the other mem-bers of the house from doing anything. Try Allen's Foot-Ease.

A powder to be shaken into the shoes.

When President Cleveland sent a special message to congress announcing that he could place his last issue of \$62,-00,000 of government bonds with the Morgan syndicate at a saving of \$16,-000,000 to the government if congress would give him permission to embody a clause in the bonds providing for their edemption in gold only, instead of "coin". Congress refused its consent and Republicans numerously voted against gold bonds. One of these so voting was General Grosvenor who may be the Republican candidate for governor of Ohio in 1899. This same Grosvenor the other day voted against the kind, in the right quantity, Teller resolution, thus favoring the pay ment of the bonds in gold. He is only a

specimen of Republican inconsistency. Conferences of considerable importance as affecting the composition of the next congress have been held recently in Washington between the Democrats, the Populists and the silver Republi cans. The gist of the conclusions reached was that, while the three parties should maintain a separate organizato bring about a solid combination sgainst the Republicans. If fairly carried out-and we presume it will bethis means a big anti-Republican majority in the house of representatives .-Pittsburg Post.

By all means let us have a union of effort. The common enemy is the Republican party as shown by the course of the administration and the action of Congress. Dingley tariff and the vote in Congress on the Teller resolution shows where the party is on just taxation and on silver.

Senator White, of California, has dred millions. Beautiful, isn't it? This Hawaiian annexation, occupying three is just what the cormorant bondholders days. Mr. White meets every point load us more and more with debt. Like scheme was based on "sentiment and upon." And are consulted by distinguished educators, physicians, clergymen and women in professions and work in which excessive near use of the eyes is demanded. Thoughtful people know that their eyesight is priceless. The care of their eyes, the proper fitting of glasses, upon which depends their perpetuity of vision, must be entrusted to one capable by years of study and training, to carefully detect and correct any error of refraction, no matter how intricate. The delicate structure of the eye, its nutrition, nerve supply, its complex muscle action, make it more liable to become affected by overwork than any other organ of the body. One can readily see why a patient who has overtaxed his sight complains of blurring of vision, headache, dizziness, neuralgia, spots before the eyes, inflammations, granulations, winking, trembling spells, burning and smarting of the eyes, which are often the forerunners of various nervous and brain affections. Our offices are equipped with all the modern optical appliances known, and we treat the eye and fit glasses by new and improved methods, entirely different from those in vogue during the past years. There are no disagreeable teatures in connection with our methods of testing the eyes, but on the contrary they are interesting and instructive. This work is all done free of charge and you can consult Drs. Heckler & Murdock with the utmost confidence that if they cannot do your eyes any good they will not do them any harm.

The greatest difficulty presented to the occulist has been the perfect fitting of the eyes of CHILDREN, owing to the fact that they cannot intelligently explain their troubles. With the scientific and skilled use of the SKIASCOPE, the doctors can absolutely coarect all defects of sight of persons of all ages, independent of any questions or explanations. Drs. Heckler & Murdock are daily receiving testimonials from grate-

ful patients both here in Canton and from the neighboring towns. We cordially invite you to call and examine our books and they will show you that we number our patrons from the best business people of

If the glasses you are wearing do not relieve your eyes, we can grind you a pair of our Salurian Lenses, which we guarantee will give you comfort and will properly correct every defect of your vision. These we can readily insert in your old frames.
